

THE UNIVERSITY OF
MELBOURNE

Centre for Integrated Critical Care Graduate Researcher Seminar 24th November 2020

Faculty of
Medicine, Dentistry
and Health Sciences

Join us for our second Graduate Researcher Seminar for 2020. CICC student seminars provide an opportunity for research higher degree students to share their program of research with peers in an informal and supportive environment. The seminars are also designed as a forum for the CICC community to provide training in research methodology.

Program

Welcome

Dr Mark Plummer, Graduate Student Seminar Convenor

Melissa Ankravs

PhD candidate

"Delirium in the critically ill patient"

Scott McAlister

PhD candidate

"The environmental impact of healthcare"

Lucy Modra

PhD candidate

"Sex differences in ICU admissions in Australia and New Zealand"

Ben Samson

PhD candidate

"The epidemiology and haemodynamics of the extracorporeal circuit during continuous renal replacement therapy"

Professor David Story

Deputy Co-Director CICC, Chair of Anaesthesia

"Crashing without a pilot: how a pilot study can save your PhD"
