Congratulations Professor Ingrid Winship!

Jeremy Jass Memorial Lecture Award

Professor Ingrid Winship AO, Professor of Adult Clinical Genetics, University of Melbourne, and Director of Genomic Medicine, RMH, was awarded the **Jeremy Jass Memorial Lecture**.

Professor Jass, an early leader in the investigation of inherited colorectal cancer, is honoured each year at the Familial Aspects of Cancer Conference in NSW.

Murmuk Djerring: The University of Melbourne Indigenous Strategy 2023-2027

In this strategy: Murmuk Djerring, “working together” in Woi Wurrung language, presents priorities and opportunities to strengthen the University of Melbourne’s commitment to Indigenous Australians and recognise the contributions of Aboriginal and Torres Strait Islander peoples and their knowledge and value systems in support of this aim. I would urge you to read “[Murmuk Djerring - Indigenous Strategy 2023-2027](#)” as a framework for our shared journey together, especially at this time of the Referendum on an Aboriginal and Torres Strait Islander Voice to Parliament where the University Council and Executive have confirmed their support for a “Yes” position. More information: <http://unimelb.edu.au/murmuk-djerring>

2023 Dementia Ageing and Aged Care

About the Scheme

The objectives and intended outcomes of the [2023 Dementia, Ageing and Aged Care Grant Opportunity](#) are aligned with the following [Australian Medical Research and Innovation Priorities 2022-2024](#): Priority Populations, Data, Digital Health and Artificial Intelligence, Primary Care Research & Preventive and Public Health Research.

One of the below streams:

- Stream 1 - Targeted Call for Research
- Stream 2 - Targeted Call for Research

Key Dates

- Applications open - Now
- Minimum data due – 18 October 2023
- Applications close - 15 November 2023

2023 Stem Cell Therapies

About the Scheme

The objectives and intended outcomes of the [2023 Stem Cells Therapies Grant Opportunity](#) are aligned with the following [Australian Medical Research and Innovation Priorities 2022-2024](#): Consumer Driven Research, Drug Repurposing & Translation and Commercialisation

One of the below streams:

- Stream 1 - Accelerator
- Stream 2 – Accelerator

Key Dates

- Applications open - Now
- Minimum data due – 18 October 2023
- Applications close - 15 November 2023

2023 Cardiovascular Health

About the Scheme

The objectives and intended outcomes of the [2023 Cardiovascular Health Grant Opportunity](#) are aligned with the following [Australian Medical Research and Innovation Priorities 2022-2024](#):

- Primary Care Research
- Consumer-Driven Research
- Public Health Interventions
- Aboriginal and Torres Strait Islander Health.

One of the below streams:

- Stream 1 - Incubator
- Stream 2 - Targeted Call for Research
- Stream 3 - Targeted Call for Research
- Stream 4 - Targeted Call for Research
- Stream 5 - Accelerator

Key Dates

- Applications open - Now
 - Minimum data due – 18 October 2023
 - Applications close - 15 November 2023
