

Help Us Understand the Emotional Side of Diabetes in Diverse Communities

Living with diabetes is more than managing blood glucose. It affects your emotions, family, culture, faith and daily life.

MIND-MAP is a national study looking at emotional wellbeing in people with diabetes.

What is involved?

4 short online surveys

Over 3 years.

Share your experience of the emotional side of diabetes

From the comfort of home

Your data is confidential, securely stored and never identifiable.

Complete all surveys for your chance to WIN 1 of 20 x \$100 eGift cards!

You can join if you:

- ✓ **have diabetes:**
Type 1, Type 2, Maturity-onset diabetes of the young (MODY), Latent autoimmune diabetes in adults (LADA)
- ✓ **are 18+ years old**
- ✓ **live in Australia**

We welcome people from all cultural, language and faith backgrounds.

Why take part?

Improve support services for diverse communities

People from all cultures across Australia are invited
