If you are a 3rd year undergraduate student looking for some research experience, come and do an internship with us!

Our 12-week program allows you to learn about:

- Evidence synthesis (meta-analysis)
- Psychosocial trial design
- Test and evaluation
- Qualitative studies
- Quantitative studies

Please note: applicants should be prepared to commit a minimum of a day per week over 12 weeks. However, flexible arrangements can be negotiated.

For more information, contact Dr Alex Bahar-Fuchs (alex.bahar@unimelb.edu.au) or Dr Amit Lampit (amit.lampit@unimelb.edu.au)
