

DEMENTIA WORKSHOPS 2019

For personal carers, nurses, diversional therapists, lifestyle workers and allied health working in acute, sub-acute, community & residential aged care settings.

Engaging in pleasurable and meaningful activities is vital to the health and wellbeing of those living with dementia. Lack of engagement is associated with many negative outcomes including behavioural and psychological symptoms (BPSD) like aggression, agitation, psychosis, anxiety and depression. These workshops focus on tailoring engagement to better meet the person's needs, interests and abilities and potentially reduce some BPSDs.

**Using
activities to
enable and
care for
People living
with dementia
who
experience
BPSD**

Workshop Objective: To further develop skills in identifying, selecting and using activities in many care environments to enable and engage the person living with dementia who is experiencing BPSD.

Content: A popular choice, this workshop covers: The relationship between activities and BPSD • How to identify and choose activities that meet the person's needs and reduce their BPSD • Culturally specific activities • Technology based activities • Modifying activities to enable engagement • Engaging caregivers in providing and using activities • Using an activities focussed approach to daily care activities • Developing and implementing a menu of activity opportunities.

All participants will be provided with an activities resource toolkit VALUED AT OVER \$100 to take with them and use in their workplace.

Dates: Monday 27th May & Monday 28th October 2019, 9AM - 5PM

Workshop Objective: To develop practical skills in identifying, selecting and using touchscreen tablets and apps to enable engagement of people with living dementia.

Content: This newer workshop covers: Understanding the benefits and risks of using apps • Setting up touchscreen tablets for people with dementia • Identifying and selecting apps appropriate to a persons' interests, background, abilities and severity of dementia • Problem solving commonly experienced challenges when using apps • Setting up a tablet program. Touchscreen tablets will be provided for participants to use during the workshop.

Dates: Monday 24th June & Monday 7th October, 10:30AM - 4PM

**Using Apps to
enable
engagement
for People
living with
dementia**

**Reminiscing
with People
living with
dementia**

Workshop Objective: To further develop practical skills in using reminiscence to enable and engage the person living with dementia.

Content: This new workshop covers: Understanding the benefits and risks of reminiscence • Approaches to reminiscing across the dementia trajectory • Culturally specific reminiscence • Engaging staff and family in using reminiscence • Using life review • Developing and implementing a reminiscence program • Evaluating the use of reminiscence • Developing resources to promote reminiscence • Incorporating reminiscence in the environment.

All participants will be provided with reminiscence toolkit VALUED AT OVER \$100 to take with them and use in their workplace.

Dates: Monday 29th April & Monday 18th November 2019, 9AM - 5PM

Workshop Dates, Locations and Fees

All workshops will be held at the St George's Hospital campus of St Vincent's, located at 283 Cotham Rd, Kew, Victoria. This hospital is on the 109 tram line and is not far from the 72 tram which runs by the Camberwell train station. Off street parking available.

Workshop are deliberately kept small so places are strictly limited.

of Old Age**

Conditions of Discounted Registration

To obtain the discounted registration, payment must be made by the specified cut off date for the Workshop.

Cancellation Policy

For delegate cancellations, an administrative fee of \$40 will be incurred for each registration cancelled up to 7 days prior to the workshop. Refunds will not be given for cancellations within 7 days of the workshop. A substitute delegate is welcome to attend.

The Academic Unit for Psychiatry of Old Age reserves the right to cancel or postpone any of the workshops. If this occurs, registration fees will be refunded in full.

For further information about the workshop please contact Alissa Westphal on alissaw@unimelb.edu.au

About the Workshop Facilitator

Alissa Westphal is a Lecturer in Dementia Care in the Academic Unit for Psychiatry of Old Age at the University of Melbourne and has extensive clinical experience and interest in engaging, enabling and caring for people living with dementia who experience BPSD using non-pharmacological approaches. She actively conducts research, presents nationally and internationally and publishes on various aspects of dementia care.

Additional Workshop Information

Interactive learning methods, small group work, case examples and practical exercises will be used throughout each workshop to explore and illustrate the material covered. Examples of activity interventions will be available during the workshops for participants to interact with.

Feedback from Past Workshop Attendees

Brilliant. Loved it. Going back to work with positive thoughts.

Thank-you for such a great & informative day. This has been the best workshop I have attended.

Well delivered and provided a lot of strategies to prevent behaviours

Best value for money workshop.

Completely satisfied. Very informative both in theory and practical examples, literature and information. Very happy. Thank-you.

The small and large group activities are fantastic.

Great mix of activities, speaking, power-points. Amazing amount of resources.

Necessary for all working in aged mental health & aged care

Targeted and practical

Loved the display tables so that I could touch and look through resources.

Alissa Westphal – A pleasure to listen to. Very well conducted.

Was a great workshop. Most informative. Want more.

I have worked in a dementia unit for the past 17 years and have done many training sessions and I have found that the 2 workshops that I have done are beyond expectations and well worth it. Your knowledge is just amazing & so is your passion.
