

**2024 Department of General Practice and Primary Care (DGPPC) Honours Round 2 Project list - updated 11/01/2024**

Project Title	Principal Supervisor	Co-supervisor	Research Area/Team
The phrase, 'Usual GP' care is often heard, but is there really such a thing? This project will conduct a systematic review of studies which define 'usual gp care' as a control group and determine if this phenomenon really exists or is too heterogeneous to be used as a control group in RCT's in primary care studies.	Dr Deborah de Guingand	TBC	Cancer
Co-design of cancer screening health promotion material: the 'experts' versus the consumers. How do we reconcile the differences?	A/Prof Jennifer McIntosh	TBC	Cancer
Understanding the integrative medicine context in Australia: A landscape analysis	Dr Rachel Canaway	TBC	Health Data Science for Medical Research
Perspectives of the medical profession on integrating traditional, complementary or integrative medicine in the Australian health system: A qualitative study	Dr Rachel Canaway	TBC	Health Data Science for Medical Research
The impact of changing the diagnostic threshold for diagnosis of gestational diabetes: a data-driven cross-sectional study	Dr Rachel Canaway	TBC	Health Data Science for Medical Research
Subjectively better but objectively worse: Unpacking differences between perceived and objective quality of life among complementary medicine users with chronic illness	Dr Rachel Canaway	TBC	Health Data Science for Medical Research
Development and implementation of consumer and carer guidance to identify and select high quality mobile phone health apps in stepped care models for mental health.	Dr Matthew Lewis	TBC	Mental Health
Assessing the usability and acceptability of a clinical decision tool and care navigation for GPs to triage children and young people presenting with mental ill health.	Dr Cath Kaylor-Hughes	TBC	Mental Health
Mapping components of best-practice peer-delivered interventions to support physical health in people with mental ill-health	Dr Matthew Lewis	TBC	Mental Health
