

THE UNIVERSITY OF
MELBOURNE

RECRUITING DOCTORS, NURSES AND PRACTICE MANAGERS FOR A STUDY

We are evaluating the National Cancer Screening Register's new healthcare provider portal (the portal is accessed through your PRODA account and gives real time cervical and bowel screening information for your patients)

We are interested in your experience - how this integrates into your practice, whether it is meeting your expectations, and whether it could be improved

To be eligible, you must be a doctor, nurse or practice manager/administrative staff member and have interacted with the portal at least once

We will not be seeking any personal information regarding your patient data

If you are interested, we will conduct a phone interview that will take about 30 minutes

To organise an interview at a time that suits you, please get in touch with Danielle via the email on the left

TO PARTICIPATE PLEASE EMAIL :
