

DID YOU KNOW THAT YOUR DOCTOR AT THIS PRACTICE SOMETIMES TAKES PART IN RESEARCH?

Their participation helps us provide our patients and the community with the best quality of care.

From time to time, this practice conducts its own research or works with trusted researchers and organisations—such as universities—to carry out **health projects and studies**.

All research strictly adheres to all relevant guidelines and human research ethics approvals to ensure they are **safe and fair**.

Examples of research may include:

- Treatment Innovations
- New Health Screening Tests
- Improving Healthcare Delivery

We may contact you to see if you would like to be involved.

Participating in research is your choice. Please let our receptionist know if you **do not** wish to receive information about these opportunities.
