Clinical Leadership During Crises

PADM90024

Learn to rapidly assess a complex situation, with limited and fragmented information, while providing effective communication to colleagues, patients and healthcare organisations

Overview

Responses to disasters and terror events require leadership, and many clinicians and health service managers anticipate taking on leadership positions or find themselves in leadership roles, without any formal education in leadership. This subject provides clinical and health service leaders (and aspiring leaders) with knowledge of leadership practices during crisis management.

Topics covered include:

- Styles of effective leadership
- Leading successful and productive teams
- Conflict resolution and difficult conversations
- Emotional intelligence
- Ethical issues in clinical and health service leadership
- Coaching and developing others.

Credit towards degrees

Access course material provided to students enrolled in Disaster and Terror Medicine degrees.

Single subjects taken in 'assessed mode' will give you credit towards degree courses.

Entry requirements

To be considered for entry, applicants must have completed:

- a) A medical degree or,
- b) An undergraduate degree in any discipline and at least three years of documented relevant work experience in a health management, paramedicine, nursing or equivalent role.

**Find out
more:**

Delivered online over 8 weeks, plus a face-to-face workshop on 24-25 August

Dates:

15 Jul: access to materials
16 Jul: last self-enrol date
22 Jul: teaching starts
15 Sep: teaching ends
13 Oct: end of assessment

Cost:

\$4,524 (assessed)
\$3,976 (non-assessed)

CPD and CME:

Registered for CPD with ACEM and CICM; suitable for other Colleges' CPD and can be claimed for CME.
