

MD Discovery: Clinical Scholar Year 4

THE UNIVERSITY OF
MELBOURNE

Department of
General Practice
and Primary Care

[Learn more](#)

Want Greater Clinical Impact?

Our clinical scholar subject is ideal for students interested in general practice or whole-person care who want a hands-on, experiential learning experience that's focused on leadership, health advocacy and integrated care.

Choose between undertaking a narrative review or conducting a quality assurance project in a topic of your choice.

If you're passionate about improving patient outcomes, this subject will inspire you to think beyond the clinical encounter.

Explore the Bigger Picture

Develop practical and transferable skills in patient communication, collaboration and clinical reasoning

Discover how to drive change through through system-level thinking

Explore topics that matter to you

- Adolescent Health
- Cancer
- Mental Health
