

Faculty of Medicine, Dentistry & Health Sciences
Department of General Practice

Scholarly Selective 2016

WHY DO SCHOLARLY SELECTIVE WITH US?

The Department of General Practice is home to the Primary Care Research Unit which was established in 2006 as a centre for excellence in primary care research, research training and knowledge exchange.

Venue

G79 Seminar Room,
Department of General Practice
200 Berkeley Street, Carlton

RSVP

Ms Weilun Nien | wnien@unimelb.edu.au
by Monday 14 March 2016

PROJECTS

Staff at the Department conduct research on a wide variety of topics using an array of different methodologies. Research areas include:

- chronic diseases
- mental health
- abuse and violence
- cancer
- young people's health
- sexual health
- indigenous health
- complementary and alternative medicine
- social inequalities
- health services research
- and much more...

Some of our projects require students to be based in primary care settings, such as community health centres.

Details of projects are available at
<https://mdconnect.medicine.unimelb.edu.au/>

"We offer a variety of research projects, but if you have a passion for a particular area, we may be able to design a project around your interests."
